(Barber Pole)**

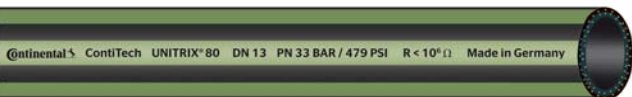

Conti-ChemSUPERIOR FEP

**LACTOPAL® -
Food & Pharm**

**UNITRIX® 80 -
Class A Air & Water Hose**

**AQUAPAL® –
Potable Water Hose**

Legacy Hose	Rationalization	Unique Characteristic
Purple Snake®	Widely preferred brewery hose in North America	Suitable for pure alcohol up to 98% and parts zero taste in brewery studies
Collector®	New Product – for Dairy Processing	Highly flexible and lightweight
Dampf Trix® Steam	It is EPDM tube and cover but with BARBER POLE COVER which is a void.	Made to ISO standards and static conductive tube, 20:1 service factor
Conti-Chem Superior FEP	Thinner FEP liner than Hi-Per and can be more competitive vs Gates Stallion (benchmark coming soon)	fabric patterned EPDM-cover, resistant to abrasion, flame and electrically-non conductive FEP lining
Lactopal®	New Product for Food, Pharmaceutical, & Cosmetics	Extremely flexible, neutral to taste, available in ½” – 4”
Unitrix® 80	Competitive Class A 500 PSI Air & Multipurpose Hose (between Ortac and Gorilla)	Highly flexible and robust, Resistant to oil, UV, grease, and chemicals
AquaPal®	New Product	Neutral to taste and odor and approved for potable water.

**DINGA
Water Saving Gun**
