

Twinhammer® Dual Air/Water Hose

Jackhammer Hose Assembly

- Application:**
- Jackhammers, air compressors
 - Wet method dust suppression hose system for pneumatic tools, including those subject to light oil mists for lubrication
 - Construction, general industrial
 - * May be used as part of an OSHA-compliant silica dust suppression system.

Tube: Black EPDM

Reinforcement: Multiple textile plies

- Cover:**
- 3/4 Air Hose: Red EPDM, smooth finish
 - 3/8 Water Hose: Blue EPDM, smooth finish

Temperature: -40°F to +212°F

Packaging: Coiled and tied, no center disc; cartons

Branding: PARKER SERIES 7084 300 PSI MAX WP MADE IN USA (DATE CODE)

Standards: Air Hose: ARPM Class C oil resistant tube

- Couplings:**
- Air Hose: Crimped carbon steel universal couplings each end
 - Water Hose: Crimped brass 3/8 rigid male couplings each end

* The air hose is rated to 300 psi maximum working pressure.

The finished hose assembly is rated to 150 psi due to the limitation of the industry preferred fitting end style/connection.

Features:

Durable, abrasion resistant and chemically bonded lines that provide easy handling while eliminating intrusive clamps, straps, tape or zip ties. The assemblies incorporate crimped-on universal end styles for quick connection/disconnection to the air system, and rust resistant crimped-on brass male NPT couplings for easy attachment to the water system.

- transfers air to power heavy duty pneumatic tools
- transfers water to suppress silica dust produced by tool operation.
- helps create a safer and more efficient work environment
